NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in Canadian Dollars)

FOR THE THREE MONTH PERIODS ENDED MARCH 31, 2015 AND 2014

1. INCORPORATION AND NATURE OF OPERATIONS

Spackman Equities Group Inc. (the "Company" or "SEGI") was incorporated on May 18, 2006. The registered head office is located at Royal Bank Plaza, South Tower, Suite 3800, 200 Bay Street, Toronto, Ontario, M5J 2Z4, Canada.

SEGI carries on the business of identifying and investing into or acquiring small/medium sized growth companies. The Company focuses on investing into or acquiring growth companies in Asia, principally in the Republic of Korea ("Korea") at attractive valuations, building a diversified portfolio of such growth companies and, ultimately, delivering the collective value derived from the performance of these businesses to the shareholders.

2. BASIS OF PRESENTATION

Statement of compliance

The condensed interim unaudited consolidated financial statements have been prepared in accordance with International Accounting Standard 34, "Interim Financial Reporting" ("IAS 34"), as issued by the International Accounting Standards Board ("IASB") and therefore, do not contain all disclosures required by International Financial Report Standards ("IFRS") for annual financial statements. Accordingly, these condensed interim unaudited consolidated financial statements should be read in conjunction with the Company's most recently prepared audited annual financial statements for the fiscal year ended December 31, 2014.

The policies applied in these condensed interim unaudited consolidated financial statements are consistent with the policies disclosed in Notes 2 and 3 of the audited annual financial statements for the year ended December 31, 2014.

The condensed interim unaudited consolidated financial statements were authorized for issue by the Board of Directors on May 29, 2015.

Basis of measurement and functional currency

The condensed interim unaudited consolidated financial statements are presented in Canadian dollars and have been prepared on the historical cost basis except for financial instruments measured at fair value through profit or loss. Historical cost is generally based on the fair value of the consideration given in exchange for assets. The Company and its subsidiary's functional currency is the Canadian dollar.

Investment entity

The Company has multiple unrelated investors and holds multiple investments. The Company has been deemed to meet the definition of an investment entity per IFRS 10, Consolidated Financial Statements, as the following conditions exist:

- The Company has obtained funds for the purpose of providing investors with professional investment management services.
- The Company's business purpose, which was communicated directly to investors, is investing for the purpose of capital appreciation and investment income.
- The investments are measured and evaluated on a fair value basis.

FOR THE THREE MONTH PERIODS ENDED MARCH 31, 2015 AND 2014

2. BASIS OF PRESENTATION (Cont'd)

Basis of consolidation

These condensed interim unaudited consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary, SEGI Investments Limited, a BVI company. A subsidiary is an entity in which the Company has control, directly or indirectly, where control is determined based on whether the company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. A subsidiary which qualifies for the exception to consolidation under IFRS 10 is accounted for as investment in shares of public company.

Critical accounting estimates, judgment and assumptions

Adoption of New Accounting Policies

Effective January 1, 2014, the Company adopted the Investment Entity Amendment to IFRS 10, Consolidated Financial Statements and has determined that it meets the definition of an "investment entity". As a result, it measures subsidiaries, other than those that provide investment-related services to the Company, at fair value through profit or loss. Subsidiaries which provide such investment-related services to the Company are consolidated.

An investment entity is an entity that: obtains funds from one or more investors for the purpose of providing them with investment management services, commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income, or both, and measures and evaluates the performance of substantially all of its investments on a fair value basis.

Recently Issued Accounting Pronouncements not yet Adopted

IFRS 9 Financial Instruments

IFRS 9, Financial Instruments was issued by the IASB and will replace IAS 39, Financial Instruments: Recognition and Measurement. IFRS 9 retains but simplifies the mixed measurement model and establishes two primary measurement categories for financial assets: amortized cost and fair value through profit or loss. IFRS 9 also replaces the models for measuring equity instruments. Such instruments are either recognized at fair value through profit or loss or at fair value through other comprehensive income (loss). The effective date for IFRS 9 is for annual periods beginning on or after January 1, 2018 .

11. RELATED PARTY TRANSACTIONS

The following related party transactions occurred and were reflected in the consolidated financial statements during the years ended March 31, 2015 and 2014 as follows:

REMUNERATION OF KEY PERSONNEL

	March 31, 2015	March 31, 2014
Management salaries	\$ 62,282	\$ 56,114
Directors' fees	7,500	-
Total	\$ 69,782	\$ 56,114

Key management personnel are those individuals having authority and responsibility for planning, directing and controlling the activities of the Company and its subsidiary including the Company's Board of Directors. The Company considers key management to be the members of the Board of Directors and the Chief Executive Officer.

During the three months ended March 31, 2015, the Company received \$29,025 (2014 - \$Nil) in rental payments from SEGL which has a common director.

During the three months ended March 31, 2015, the Company paid \$9,308 (2014 - \$Nil) in consulting fees to an officer of SEGL which has a common director.

12. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Company's significant financial instruments comprise of cash and cash equivalents, marketable securities, other receivables, investments in shares of private and public companies, notes receivable and accounts payable and accrued liabilities.

The Company classifies financial instruments in accordance with a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 Quoted prices in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability;

Level 3 Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (supported by little or no market activity).

Risk management

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

FOR THE THREE MONTH PERIODS ENDED MARCH 31, 2015 AND 2014

12. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (Cont'd)

The Company has exposure to the following risks from its use of financial instruments:

(a) Market risk

Market risk is the risk that the fair value of, or future cash flows from, the Company's financial instruments will significantly fluctuate due to changes in market prices. The value of the financial instruments can be affected by changes in interest rates, foreign exchange rates, and equity prices. The Company is exposed to market risk in trading its investments, and unfavourable market conditions could result in dispositions of investments at less than favourable prices.

The Company's investments in marketable securities FVTPL are valued at fair value as determined by price quotations by the stock exchanges on which these investments are listed. The Company's investments in non-publicly-traded investments available-for-sale are measured at cost and are written down when there is an objective evidence of impairment. During periods of significant broader market volatility or volatility experienced by the commodity markets, the value of the Company's investment portfolio can be quite vulnerable to market fluctuations.

(b) Credit risk

Credit risk is attributable to cash and cash equivalents, short-term investments and other receivable and notes receivables. The Company's other receivables and notes receivables are current and cash and cash equivalents are held with reputable financial institutions. The carrying value of other receivables, cash and cash equivalents and notes receivables represents the Company's maximum exposure to credit risk.

(c) Liquidity risk

Liquidity risk is the risk that the Company is not able to meet its financial obligations as they become due. The Company ensures that there is sufficient capital in order to meet short-term business requirements, after taking into account cash flows from operations and the Company's holdings of cash and cash equivalents. The Company's cash and cash equivalents are available within one year or are available on demand. There are adequate resources to meet any obligations as they fall due and mature within a year.

The Company's Board of Directors reviews and approves any material transactions out of the ordinary course of business including acquisitions or other major investments. Management believes that the risk associated with liquidity is low.

(d) Foreign exchange risk

Foreign currency exchange risk is the risk that the fair value of, or future cash flows from, the Company's financial instruments will fluctuate as a result of changes in foreign exchange rates. The Company currently has financial instruments denominated in U.S. dollars, Singapore dollars, Hong Kong dollars and Korean won.

13. COMMITMENTS

The Company has entered into an operating lease agreement for its business premises in Hong Kong with rental payments of HKD \$101,745, or CAD \$14,490 per month. The lease will expire on November 15, 2015 subject to renewal. In addition to the monthly rental payment, the Company is responsible for the proportionate share of common area costs and property taxes.

The Company has an employment agreement whereby the CEO will be entitled to compensation in the form of investment proceeds resulting from the disposition of the Company's venture investments during a certain period.

14. PRIOR PERIOD COMPARATIVE FIGURES

In the year ended December 31, 2014, the Company restated certain prior year balances. For further information, refer to note 17 of the annual audited consolidated financial statements for the year ended December 31, 2014.

A summary of the effects on the comparative figures for the three months ended March 31, 2015 is as follows:

- On the consolidated statement of comprehensive income (loss), an increase in unrealized gain on fair value of investment in shares of private company by \$322,341 from \$0 to \$322,341;
- On the consolidated statement of cash flows, a decrease in cash flows used in operating activities by \$322,341 from \$526,539 to \$204,198 and an decrease in cash flows from investing activities by \$322,341 from \$322,341 to \$0; and
- On the consolidated statement of changes in shareholders' equity, a decrease in opening accumulated deficit at March 31, 2014 of \$2,787,929 from \$2,344,604 to accumulated earnings of \$443,325, a decrease in net loss for the period of \$322,341 from \$222,500 to net income of \$108,016 and a decrease in closing accumulated deficit of \$2,902,413 from \$2,657,1042 to accumulated earnings of \$335,309.
